# X-Series axes

Fiskars next generation splitting axes are a true evolution of craftsmanship –purpose-designed for one strike splits of even the thickest logs. The special blade geometry and finish is complemented by a light sturdy shaft and perfect balance. Pick your size according to the task at hand.

## KEY BENEFITS

- ✓ 35 degree convex cutting bevel angle for splitting axes - the convex shape strengthens the edge to make it less sensitive to fracture
- ✓ Perfect balance between head and shaft for the most safe, comfortable and efficient swing
- ✓ Ultralight and durable FiberComp™ shaft minimizes fatigue and makes the axe virtually unbreakable
- ✓ Optimal anti-shock surface structure ensures a comfortable, firm grip
- ✓ Hooked end of the handle prevents the axe from slipping out of the hand
- ✓ Comes with a plastic sheath for easy carrying and storage

## Chopping vs. splitting

### Chopping axes

Fiskars next generation chopping axes serve all manner of woodwork, chopping, carpentry and pruning. The range delivers a wonderful package of minimalist design and sharp-edged functionality with the right fit for all wood preparation tasks. Pick your size according to the task at hand.

The Universal Chopping Axe's thin, wide edge ensures a clean, easy cut in fresh, resinous wood, like spruce or pine.

### Splitting axes

Fiskars next generation splitting axes are a true evolution of craftsmanship –purpose-designed for one strike splits of even the thickest logs. The special blade geometry and finish is complemented by a light sturdy shaft and perfect balance. Pick your size according to the task at hand.

The Splitting Axe features a unique cutting edge that easily slices into the wood, which the thick axe blade then pushes apart.

## Choose the right size for you

### 1. LENGTH TEST

Grab the axe on the shaft below the blade. Turn the shaft towards your armpit and if the end of the shaft reaches the armpit the axe is too long

### 2. WEIGHT TEST

Grab the axe at the end of the shaft and let the head rest towards the ground. Lift the head up with a wrist turn close to your body as pivotal point (axe is vertically in your hand at the end of the movement). If you can't lift the axe this way, the axe is too heavy.

# Fiskars digging

To make digging as easy as possible you need a reliable spade suitable for the task. That is why we have developed a variety of spades and shovels. We have spades for digging in hard soil, for edging and planting. We also have light spades for soft soil. We have shovels for ideal for moving sand, soil and snow. In short, we have a shedload of shovels and spades.

## Xact™

Gardening is a demanding pastime. Fiskars Xact™ digging tools will give you that extra push to take your gardening to a whole new level and make digging a truly pleasurable experience. Fiskars Xact digging tools fit you – combining the right length with lightweight material and durability.

## SmartFit™

This range of telescopic tools have an adjustable shaft length which extends from 1050 mm to 1250 mm. The spades, shovels and forks can be comfortably used at a range of heights. The welded connection between the blade and the shaft ensures rigid durability and longevity while its boron steel construction adds extra strength.

## Ergonomic™

Beautifully designed and realised, Fiskars Ergonomic™ is a perfect selection of tools for digging, shoveling and composting – all for the most discerning gardener. The spades, shovels and forks have angled shafts and handles for reduced strain on back, hand and wrist. The plastic coating on the shafts maximise grip and comfort.

## Light

The new beautiful Light range offers you a selection of lightweight tools for planting, cultivating, raking and other gardening tasks. # Fiskars StaySharp™

The Fiskars StaySharp™ Max reel mower promotes greener, healthier lawns by cutting each blade of grass cleanly with a scissor-like action. This minimizes the lawn's moisture loss and reduces exposure to disease.

The Reel Mower lets you cut grass without noise, uncomfortable vibrations and the hazards associated with power driven rotary blades. It is one of the most environmentally friendly ways to cut your lawn.

- Long-lasting performance due to StaySharp™ cutting system using precision-ground, hardened steel blades to cut grass without touching
- Ergonomic, height-adjustable handle with padded grip for more comfort
- Forward grass discharge

## Features & benefits

### 1 Sharp blades

Specially developed blade grinding ensures high-precision cutting and keeps the blades sharp longer.

### 2 Easy cleaning

Handles are injection molded onto the blades insuring easy and hygenical cleaning.

### 3 Supreme ergonomics

Handles are designed under strong consideration of the natural movement of the hand resulting in enhanced comfort and cutting control.

### 4 Best materials

Made of the best quality materials, Classic scissors offer outstanding comfort, performance and durability.

### 5 Quality control

Each product is manually tested before leaving the factory ensuring you get only the first class scissors.

## Classic™ garden scissors

Fiskars orange handled scissors are design classics that have been popular for more than four decades. Our selection of garden scissors are excellent for precise cutting and trimming tasks. The carbon steel blades easily cut through materials from fine wire to flower stems.

# Pick the right pruner

## PowerGear™ X

- Patented PowerGear™ mechanism makes cutting 3,5 times easier compared to standard mechanisms.
- Blades made from extra hard, corrosion resistant steel (CrMoV) ensures that they stay sharper longer.
- Unique rotating handle movement ensures that all fingers are used simultaneously and exert an equal but reduced pressure for maximum power and less effort on every cut.

## PowerStep™

- Allows to cut thin and thick branches with the same tool, without compromising on the performance.
- Thin branches are cut in one easy snip – thicker branches in 2 or 3 gradual steps to reduce the force needed per stroke.
- Mechanism automatically sets the applicable amount of strokes.

## SmartFit™

- Optimal reach thanks to adjustable length of the handles
- Lightweight product, comfortable to use.
- Ergonomic design
- Optimally shaped to fit the hand.
- Fits your need - multi-purpose usage with adjustability of cutting capacity.
- Fits small to large hands.

## PowerLever™

- Lightweight FiberComp™ handles designed for small and medium-sized hands.
- Reduced cutting effort and ability to use all fingers simultaneously thanks to patented PowerLever™ mechanism.
- Easier cutting and cleaning due to non-stick PTFE PowerLever Pruners coating on the upper blade to reduce friction.

## Fingerloop

- Lightweight and strong FiberComp™ handles with SoftGrip™ for added comfort and safety.
- Fingers are protected by the loop in the lower handle.
- Corrosion resistant, stainless steel blades.

## SingleStep™

- Lightweight and durable handles made from polypropylene
- Comfortable grip due to sturdy handles.
- Steady cutting action due to well-balanced design.

## Quantum™

- High-quality aluminium body balanced by comfortable cork TruGrip™ handles.
- Clean, accurate cutting thanks to TruEdge™ blade technology including precision ground hardened steel and anti-friction coating.

## Pro Pruners

- Professional quality CrMoV blades.
- Easy to maintain, all parts replaceable.
- Lightweight with sturdy Softgrip™ and shock absorber.
- Handles and lock fit both left and right hand.

# PowerGear™ X pruners

Fiskars PowerGear™ is a versatile family of tools that include pruners, loppers and hedge shears to cover most of the cutting needs in the garden. The ingenious gear mechanism which boosts the power of the cut is complemented by sharp, quality steel blades and lightweight, durable FiberComp™ handles.

## Anvil or bypass?

### BYPASS

Both blade and counter blade press into the wood to make a clean cut with less compression damage (cutting blade bypasses counter blade in a scissors-like action). Possible to cut close to the stem. Best suitable for fresh wood.

### ANVIL

Upper blade is forced through the wood with greater pressure as the anvil blade supports the branch and spreads the pressure until the cut is complete. Best suitable for dry or dead wood.

# Snow tools

# SnowXpert™ snow tools

Fiskars snow tools range offers a wide selection of snow tools including sledges, snow shovels, pushers and rollers for both home and professional use. Fiskars SnowXpert™ range of tools has distinctive orange handle details and a patented blade edge lasting up to three times longer than traditional snow tool edges. Fiskars SnowXpert™ tools have a patented blade design that lasts up to three times longer than traditional blade solutions. The steel edge on traditional snow tools flexes and wears out. Fiskars SnowXpert™ tools' new patented blade design incorporates a stiff steel bar. The design increases blade rigidity and improves blade durability.

## Features & benefits

**1 New ergonomic D handle**

For better grip & user comfort

**2 Non slip warm grip**

Orange in color for easy visibility

**3 3X times more durable blade**

Patented steel wire reinforced blade

# A hard-working history

Established in 1649, Fiskars is one of Europe's oldest companies. In that time we've created tools, which have helped literally millions of people, worldwide, work better, faster and easier. Every single tool has been created with a keen focus on functional design, superior performance and durability. No wonder our products have become world-renowned: take our iconic orange-handled scissors, which have sold over a billion since their launch in 1967.

Now, we've added an entirely new hardware range to our selection. This range includes a variety of brand new striking tools, specifically created to help the growing number of people who enjoy working on their homes do even better jobs.
